## Population Data

Population data is used in this release to calculate crime rates. These data are estimated population figures as at 30 June each year obtained from Statistics New Zealand.

The estimated resident population is based on the census usually resident population count, with adjustments for residents missed or counted more than once by the census (net census undercount), and for residents temporarily overseas on census night.

These population estimates exclude an increasing number of international students who are studying in New Zealand for less than 12 months.

Note that 2002-2007 estimates are based on the 2001 and 2006 Census data. Estimates have been revised since the previous publication of this report.
